PALLIATIVE CARE ETHICS REFLECTION

Ethics Analysis: Discuss your palliative care ethics experience comparing and contrasting 1 or 2 patients you cared for during the rotation. Please include as relevant: Autonomy, Non-Maleficence, Beneficence, and Social Justice and the application of these to advanced illness goals of care and treatment options:

Goals & Objectives: Using the faculty guide provided to you at the beginning of the rotation reflect on the goals and learning objectives as they pertain to 1 or 2 patients you cared for during the rotation. Please include as relevant: Inter-professional and patient/family communication and decision making, Palliative Care, and Family Meetings:
